

Would you like to know what is going on in your area directly from Police Officers and PCSO's?

Would you like to fill in our survey and provide your feedback for us?

If the answer is yes, then please sign up to Northamptonshire Talking (NT).

All you need to do is email C7114@northants.police.uk your full name, email address, postcode and house/flat number all of which is kept confidential.

You will then receive an email shortly from NT (**please also check your junk folder**).

There will be a verification link in this email which will need to be clicked to verify your account. It is important to make the account also activated.

Once your account is **verified and activated**, you will then start receiving Neighbourhood alerts.

Awareness - NT will send emails out to participating members making them aware about what crime is happening in their area. This is a particularly good tool to raise awareness of crime trends in a member's area.

Witnesses - If an incident has occurred in your area, we will put an alert out asking for witnesses / CCTV owners to come forward. This will increase the amount of community intelligence / evidence that comes into the police.

Results - We will use NT as a way of communicating outcomes of crime in your area, so you are aware of the action that has been taken.

Long story short:

We encourage people to sign up for our free email messaging service and survey. This is used by the local policing team to send out important crime and crime-prevention information along with witness appeals relevant to specific areas.
